DRAFT

PROCEEDINGS OF THE MURRAY COUNTY BOARD OF COMMISSIONERS MURRAY COUNTY GOVERNMENT CENTER - SLAYTON, MINNESOTA

March 24, 2026, 8:30 AM

Pursuant to notice, the Murray County Board of Commissioners convened with the following members present in person: Commissioners; Loy Woelber, Jackie Meier, Mark Carlson, Dennis Welgraven and Roger Zins. Also Present in person were HR Director/Deputy Administrator Sharon Giese and General Assistant Renee Gleason; County Attorney Travis Smith via Zoom.

Please be advised, in accordance with MN Statute 13D.02, Commissioner Jackie Meier attended this meeting remotely via Zoom due to personal travel. Therefore, audio and video connections were confirmed. All votes taken during this meeting were via roll call vote.

1.1. PLEDGE OF ALLEGIANCE

2.1. AGENDA ADDITIONS

The Board Chair asked if there were any additions to the agenda, none were added.

2.2. IDENTIFY ANY CONFLICT OF INTEREST

The Board Chair asked if there were any conflicts of interest, none were identified.

Motion made by Commissioner Zins, seconded by Commissioner Welgraven and passed to approve the outlined agenda with no conflicts of interest.

Roll Call Vote: 5 = Aye; 0 = Nay; Motion passed.

Woelber: Aye

Welgraven: Aye

Zins: Aye

Meier: Aye

Carlson: Aye

3.1. APPROVE MINUTES FROM 03/17/2026

Board Chair Carlson asked for approval of the Consent Agenda with the minutes of 03/17/2026.

Board Chair Carlson stated one correction of the meeting minutes. On 03/10/2026 it was reflected in the Committee Meeting reports, that I attended an EDA meeting. He does not sit on that committee and did not attend the EDA. Please strike from minutes.

It was moved by Commissioner Meier, seconded by Commissioner Welgraven, and passed to approve corrected meeting minutes of 03/17/2026 as outlined by Board Chair Carlson.

Roll Call Vote: 5 = Aye; 0 = Nay; Motion passed.

Zins: Aye

Welgraven: Aye

Woelber: Aye

Meier: Aye

Carlson: Aye

4.1.1. DITCH BILLS

It was moved by Commissioner Woelber, seconded by Commissioner Zins, and passed to approve the report of bills for payment of the Murray County Drainage Authority as follows:

Rinke Noonan

21-663-6260	CD 14	148.50	(M-L) Redetermination of Benefits-Group 4
21-689-6260	CD 30	186.00	(M-N) Redetermination of Benefits-Group 4
21-809-6260	JD 5	108.50	(M-C) Redetermination of Benefits-Group 4
21-829-6260	JD 14	30.50	JD 14 Partial Abandonment
21-845-6260	JD 20	294.50	(M-N) Redetermination of Benefits-Group 4
21-853-6260	JD 22	124.00	(M-C) Redetermination of Benefits-Group 4
21-855-6260	JD 23	139.50	(M-C) Redetermination of Benefits-Group 4
21-861-6260	JD 27	2,362.50	(M-L) Partial Abandonment-Legal
21-868-6260	Admin	200.00	02/2026 Monthly Retainer
	Subtotal	<u>3,594.00</u>	

Total Ditch Bills 3,594.00

Copies of invoices and petitions were available at the meeting.

Roll Call Vote: 5 = Aye; 0 = Nay; Motion passed.

Welgraven: Aye

Zins: Aye

Woelber: Aye

Meier: Aye

Carlson: Aye

4.2.1. JUSTIN OPDAHL CUP EXTENSION

A Public Hearing was held for the following conditional use permit on May 15, 2025, by the Murray County Planning Commission, and was approved by the Murray County Board of Commissioners (County Board) at their meeting on June 3, 2025:

Justin Opdahl

Part of NE1/4 SW1/4 and Part of NW1/4 SE1/4, Section 33, Lime Lake Township CUP #1432
To expand an existing feedlot to 740 animal units by constructing a total confinement barn in the Agriculture District

Justin has been working on securing financing for his cattle barn project, which is taking longer than he anticipated. His plans are to start construction this year, but he does not feel that construction can begin prior to the expiration of his conditional use permit of June 3, 2026.

It was moved by Commissioner Woelber, seconded by Commissioner Zins and passed to approve a one-year extension of the Justin Opdahl Conditional Use Permit #1432 in Part of NE1/4 SW1/4 and Part of NW1/4 SE1/4, Section 33, Lime Lake Township, Murray County to commence with construction prior to June 3, 2027.

4.3.1. SURPLUS PROPERTY

The County property commonly known as the former Highway Facility, located at 3051 20th Street in Slayton, is currently still being utilized by the County for storage, salt operations, and fuel supply. The Building Committee recommends declaring surplus and marketing property through a public online auction platform (GovDeals).

To proceed with marketing the property for sale, the County Board must formally designate the property as surplus. Possession of the property is projected to occur once the County has relocated operations from the site.

- Parcel ID 29.150.0010 – 5.41 acres
- Parcel ID 29.150.0020 – 0.59 acres

Colin Bower and Mark Moritz from GovDeals attended meeting to provide additional details surrounding the process for this property listing:

- GovDeals would advertise on [Loop.net](https://www.loop.net) and/or MLS. There are no fees or obligations unless there is a successful transaction.
- They recommend a bid deposit for all bidders. The bidders not awarded, would be refunded their deposit. Deposit is typically a dollar amount.
- There is a 5% GovDeals fee and closing costs which the buyer will be responsible for as disclosed in the listing.
- GovDeals can create a press release for the County to use in radio, newspaper, and website. Carl Nyquist added the county is required by statute to publish these locations and also recommend we advertise for 45 days to meet or exceed those same requirements.
- Setting minimum bid price: recommend starting at a low minimum. However, we could make the sale subject to Board of Commissioners' approval. Setting a lower minimum typically generates a lot more interest and competitiveness in the auction. But subject to Board approval, if all bids come in too low, we can decline all bids and sale.
- GovDeals will need to have any floor plans, pictures, auction dates, anticipated closing and possession dates, and type of deed at sale.

There was previous discussion about separating parcels and selling each parcel. The Building Committee discussed and understood that there is not a clean parcel distinction with overlapping structures. Therefore, it is in the best interest of the bidders not to separate parcels. The Board can always revisit the parcel separation discussion if the auction is not successful.

It was moved by Commissioner Zins, seconded by Commissioner Carlson, and passed to authorize the sale of Murray County parcels 29-150-0010 and 29-150-0020 (Christensen Subdivision, Lots 1 and 2, Blocks 1, City of Slayton), further moving that the sale will be conducted as an online auction on the site GovDeals.com.

Roll Call Vote: 5 = Aye; 0 = Nay; Motion passed.

Woelber: Aye

Welgraven: Aye

Zins: Aye

Meier: Aye

Carlson: Aye

The Board Chair stated per agenda, we were to go into closed session to determine the minimum asking price. However, due to the discussion conducted, this should be unnecessary. But is it necessary to discuss internally the minimum price the board will accept? No, not until the bids are submitted and ready to be evaluated.

Carl Nyquist thought the property could be listed as soon as early April with a 45-day listing. Do we have an anticipated closing and possession date? We are currently storing some equipment there, using for fuel station, and salt storage.

We may not be able to vacate the property until fall because of the Phase II construction timeline. The county does have alternatives if the situation comes to that. Commissioner Woelber pointed out it is more attractive to the buyer if we have closing and possession shortly thereafter. In addition, the buyer may want to have possession prior to winter.

Purchase contingent on financing? It is thought this sale would NOT be contingent on financing. If they are bidding and approved, the buyer will be expected to carry out the purchase. If we close bidding on the 1st of June, we could have closing slated for 15th of July. These guidelines will be reflected in the listing. The nearest Board Meeting to bid close would be June 2nd and action could be taken then.

Carl will work with GovDeals on a starting price. It is thought this price would be estimated at \$250,000. Again, setting a starting price lower in most cases generates a lot more interest and competitiveness. If for some reason, we need to adjust the discussed dates, we can re-visit them. The county should be cognizant of the amount of fuel in the tanks and pending needs going forward.

5. CLOSED SESSION - The County Board will go into closed session to discuss establishing a minimum sale price (reserve amount) for the property pursuant to Minn. Stat. § 13D.05, subd. 3(c)(1).

Because of the preceding discussion, it was not necessary for the Board of Commissioners to enter into closed session. No closed session was conducted.

MEETING WAS ADJORNED AT APPROXIMATELY 9:30 A.M.

ATTEST:

Sharon Giese, HR Director/Deputy Administrator

Mark Carlson, Board Chair

MCMC Monthly Report

Board Action Requested

N/A

Supporting Documents

1. 4.7.26 Board Report

People

- Director of Nurses – I am happy to announce that Courtney Bonnstetter will be our next Director of Nurses here at MCMC. Courtney is currently a Director of Nurses in a long-term care facility and has remained on as a casual RN here. Her official first day in the role is scheduled for Monday, May 4th. Amber will be interim until then and Monica has agreed to help with orientation and provide a smooth transition for Courtney into the role.
- Medical Student Rotation - Clara Lucero, University of MN Medical student, spent her first of 3 weeklong rotations here at MCMC the week of March 9th. She spent much of her time in the clinic with Dr Sanchez and had a great first experience. She will be back again on April 27th.

Quality

- Cyber Incident Notices – MCMC experienced a Business Email Compromise incident in August of 2025. After working with our cyber liability carrier on the investigation, the facility was required to notify all patients, staff, and vendors whose data was potentially exposed as a result of the breach. The notices were mailed out by Kroll on Friday, March 6th and explain the actions that were taken and precautionary steps that people can take if they are involved in the situation. MCMC took additional steps to strengthen our cyber posture when the issue was identified, and we continue to monitor cyber threats proactively.

Growth

- Ambulance Service – After our last board meeting, we continue to evaluate the ambulance service and different options that are available. We have posted for 2 additional staffed EMT positions to help cover office duties and call coverage. We met with EMS staff on March 10th to discuss staffing and different models of operation. We will continue to evaluate additional options and changes over the next several months.

Financials

- Rural Health Transformation Program – The grant application was released from the Minnesota Department of Health. The hospital will be eligible for a grant of up to \$1.4 million in year 1 of the program. The application is due May 15th and the funds need to be used by Sept 30, 2027. All projects need to fit within the 5 criteria's determined by MDH and approved prior to moving forward. Projects will need to be implemented, and all metrics need to be met for funds to be reimbursed.

Misc.

- Legislative Session– Currently there has been 83 bills introduced that pertain to hospitals in the State of MN so far this year.

Statistics

Another strong month in February puts us in a great position to start 2026. Patient demand for services continues to be strong across the board.

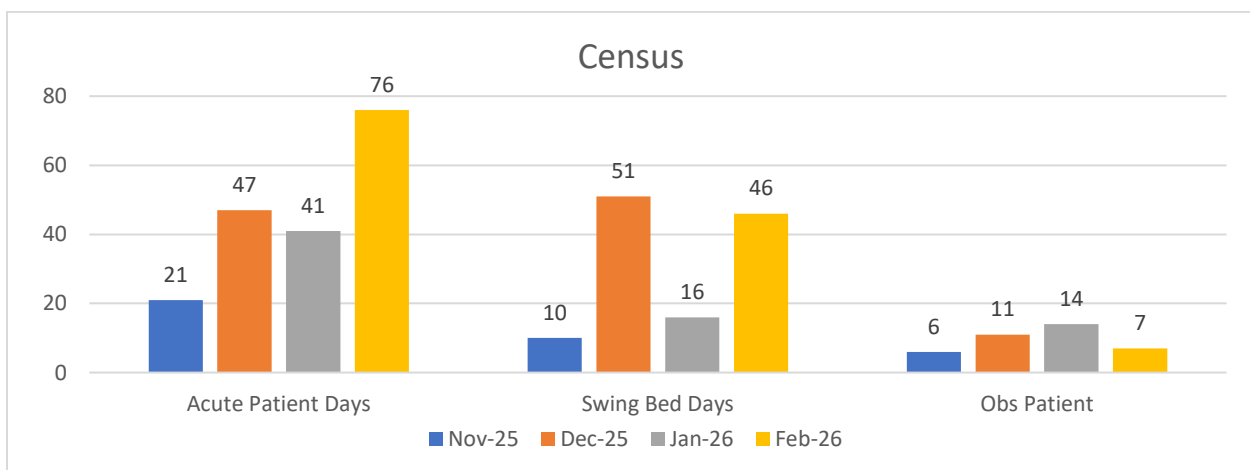

- Acute - 23 admissions for 76 total patient days. Compared to last February that was 6 more admissions and 19 more patient days
- Swing bed had 5 admits for 46 total patient days. Compared to last February that was 1 less admission and 1 less day.
- Observation stays were at 7 patients compared to 12 last year.
- Surgery procedures were at 44 for the month compared to 39 the previous year.
- ER visits were 138, which was 16 more than last February.
- Clinic visits were at 669. That is 73 less than the previous year.

Balance Sheet

- Our overall cash position decreased by **\$220,759** We currently have a total cash available of **\$9,787,999**
- We saw an increase in patient receivables of **\$902,091** and total receivables are at **\$7,519,228**
 - Net Patient Receivables (Amount we expect to collect) = **\$3,950,481 or 52.5%**
 - AR Days increased by 2.4 days and currently sit at **73.3** days. Goal is to be under **50** days

Income Statement

- Gross revenue was \$3,154,306 & above budget by \$403,962
 - Hospital IP revenue above budget by **\$59,179**
 - Hospital OP revenue above budget by **\$370,635**
 - Clinic revenue below budget by **\$25,851**
- Contractual adjustments higher than budget by **\$205,126**
- Expenses are lower than budget by **\$38,450**
- EBIDA (Earnings before interest, depreciation, and amortization) = **\$247,070**
- For the month we had a net income equal to **\$196,548**. YTD, we have a net income of **\$289,718**

MURRAY COUNTY

REQUEST TO BE ON THE BOARD AGENDA (RBA)

Requested Board Date: 4/7/2026	Item: Subordination Requests for Septic Liens
Originating Department: Auditor/Treasurer	Presenter: Heidi Winter
Requested Agenda Placement: Regular Agenda	Amount of Time Needed: 5 Minutes
If requesting to expend funds, is the expenditure budgeted?	Attending Meeting: In Person

Murray County has a septic loan program to improve and upgrade failing septic systems. These loans are paid back as special assessments on the property taxes. A lien is also filed on the property. Occasionally, a lender will request the county subordinate and let their mortgage go ahead of the county lien, typically with a refinancing or new mortgage for improvements to the property.

Board Action Requested

Approval of a subordination agreement for septic lien and authorization for Auditor-Treasurer to sign the subordination agreement on behalf of Murray County.

Possible motion for consideration:

Request #1:

It was moved by ____, seconded by ____ and passed to approve a subordination agreement for Murray County Tax Parcel ID# 04-014-0041 for a Murray County Septic Lien (Recorded Document #273143), further moving to authorize the Auditor-Treasurer to sign the agreement on behalf of the County.

Request #2:

It was moved by ____, seconded by ____ and passed to approve a subordination agreement for Murray County Tax Parcel ID # 20-012-0050 for a Murray County Septic Lien (Recorded Document # 273236), further moving to authorize the Auditor-Treasurer to sign the agreement on behalf of the County.

Murray County Interim Use Permit Application Addendum

Exploration and Excavation of Mineral Material

The Interim Use Permit issued by Murray County shall be valid for a maximum of five years. If the operator seeks to continue beyond expiration, an application for an extension of the permit must be applied for at least 30 calendar days prior to the expiration of the current permit. The zoning administrator shall provide notice of expiration at least 120 calendar days prior to the expiration date of the Interim Use Permit. A report must be submitted to the Murray County Zoning Administrator at the time of the extension request specifying that they will be operating under the existing Interim Use Permit and will not be enlarging or expanding the operation.

Subdivision 4 Application

1. The application for a Interim Use Permit for a mining operation must be filed with the Murray County Zoning Administrator. Application for extension of a permit must be made 30 calendar days prior to the termination of the previous permit. The application must be made in the name(s) of the operator of the mine and owner of the land to be mined. The application shall contain the following:
 - A. The name and address of the operator and owner of the land.
 - B. An accurate legal description of the property where the mining shall occur.
 - C. A map of the property where the mining is to occur that clearly indicates the property lines and the limits of the proposed excavation. Topographic data, including contours at 10-foot vertical intervals. Watercourses, marshes, wooded areas, rock outcrops, power transmission poles and lines, and other significant features shall also be shown.
 - D. A narrative outlining the type of material to be excavated, mode of operation, estimate of amount of material to be removed, plans for blasting, and other pertinent information to explain the request in detail.
 - E. A fee as established by resolution of the County Board.
 - F. A general location map showing the proposed mining site in relation to any city within two miles.
 - G. A map showing access routes between the property and the nearest arterial road.
 - H. Location of roads or streets, show name, right-of-way width and traveled portion width, railroads, and trails.
 - I. Easements: show widths and identify utility or other purposes.
 - J. Natural land features: show locations of watercourses and drainage ways, flood of record, wetlands, sinks, basins, and wooded areas.
 - K. Man-made features: show buildings and other structures, dams, dikes, and impoundments of water.
 - L. Processing areas shall be identified and boundaries shown.
 - M. Access road to processing and mining areas shown.
 - N. Proposed location of principal service or processing buildings or enclosures shall be shown, as well as location of settling basins and process water ponds.
 - O. Reclamation plan in conformance with Subdivision 6 of this Section.
 - P. The operator must indicate if blasting is proposed as part of the mining operation and frequency of blasting.
 - Q. Any other information or reports the Zoning Administrator or Planning Commission deems necessary for purposes of evaluating environmental or aesthetic impacts.
2. Environmental Assessment Worksheets, Environmental Impact Statements, and Other Permits.
 - A. The County will require a copy of all other State or Federal Permits as they apply to the project.
 - B. Abandoned wells must be sealed in accordance with State and County requirements.

FINDINGS OF FACT
R.A. MUECKE SAND & GRAVEL – DARRIN KRUSE
INTERIM USE PERMIT

1. Brett Muecke, owner of R.A. Muecke Sand & Gravel, Inc., applied for an Interim Use Permit to open and operate a gravel mining operation. The plans include the following equipment to be on site: crushing/washing plant, screening equipment, temporary asphalt and concrete plants with feed hopper, silo, drying/mixing drum, wheel loader and genset. No blasting will occur on the site. Diesel fuel will be on site, with preventative measures taken by installing clay berms or using dual walled tanks.
2. The Applicant is R.A. Muecke Sand & Gravel, Inc., 849 Highway 59, Slayton, MN 56172.
3. The property that is the subject of the application is owned by Darrin Kruse, PO Box 497, Milford, IA 51351.
4. The subject parcel is legally described as Part of the NE1/4, Section 1, Township 105N, Range 39W (Belfast Township), Murray County (Murray County Assessor's Parcel #01-001-0010).
5. The zoning district for the property is the Agriculture District.
6. Excavation of approximately 1,500,000 cubic yards of sand and gravel will occur greater than 3,0000 feet north-northeast of the Des Moines River. And will be west, north, and east of existing wetlands. The Applicant will need to consult the Murray Soil and Water Conservation District (SWCD) if any wetlands could be impacted.
7. The estimated depth of the materials to be mined is 11 feet. The estimated total acres to be mined is 39, with 1-3 acres to be mined at one time over the next thirty years.
8. The proposed haul roads for the gravel operation will be 290th Avenue (County Road 44), 300th Avenue, and 61st Street; road agreements from both Murray County and Belfast Township have already been submitted for the haul roads. 300th Avenue would be used minimally and only for local distribution of materials.
9. Existing land uses in the area are as follows: West and South – active and inactive gravel pits; North – agricultural land; and East – wetlands. The Murray-Cottonwood County line is under one-half (1/2) mile east of the subject property. There is one home less than ½ mile to the west and a second home over ½ mile to the northwest of the excavation site.

10. Provisions of the Murray County Comprehensive Land Use Plan that are pertinent to the application include:
 - a. Chapter 5 – Conservation, Parks, and Open Space, page 99: Wetlands not only serve as water transport systems, they also provide immediate benefits to ecosystems that surround them. Wetlands are some of the most productive ecosystems. Murray County supports active wetland restoration.
 - b. Chapter 7 – Land Use, starting on page 155, The County should concern itself with the protection and conservation of the soil, water, air, and ecosystems within the County. These natural resources need to be maintained in a sustainable manner.
11. Provisions of the Murray County Zoning Ordinance that are pertinent to the application include:
 - a. Article 7 “A” Agricultural District, Section 701 Purpose, page 47, goals:
 - i. Natural Resource Base and Environmentally Sensitive Lands Are Protected; and
 - ii. Ground and Surface Water is Protected and Preserved.
 - b. Article 7 “A” Agricultural District, Section 704.3 Mineral excavation is allowed as an Interim Use Permit.
 - c. Article 17 General Regulations, Section 1702 Parking and Loading, page 124
 - i. Off-street parking areas in any district shall not be utilized for open storage of goods.
 - d. Article 17 General Regulations, Section 1703 Performance Standards, page 125-127.
 - e. Article 21 Exploration and Excavation of Mineral Material, Section 2101 Purpose, page 145.
 - f. Article 21 Exploration and Excavation of Mineral Material, Section 2103 General Provisions, page 145-146.
 - g. Article 21 Exploration and Excavation of Mineral Material, Section 2105 Operating Conditions, page 147-149
 - h. Article 21 Exploration and Excavation of Mineral Material, Section 2106 Reclamation, page 149
12. A public hearing for the interim use permit application was held on March 19, 2026

Based on the application, the public hearing, and all facts presented to the County as part of the process, including the above facts, the County concludes as follows:

1. The proposed use will not have an adverse impact on the health, safety, and general welfare of the occupants in the surrounding neighborhood for the following reason(s):
 - There is an existing gravel mining operation across the road;
 - Similar gravel mining operation to others in the area; and
 - The general welfare of the neighbors was addressed with the additional findings of fact regarding the minimal use of 300th Avenue as a haul road.

2. The proposed use will not have an adverse impact on traffic conditions for the following reason(s):
 - There are existing gravel mining operations in the area; and
 - The township and county roads are already being used to move mining materials in and out.

3. The proposed use will not have an adverse effect on property values and future development of land in the surrounding neighborhood for the following reason(s):
 - There are several mining operations in the area currently in operation.

4. The proposed use of the property is consistent with the goals and policies set forth in the Comprehensive Plan for the following reason(s):
 - Using existing infrastructure;
 - Natural resource in the community;
 - Using existing natural resources at the mining site to better the environment; and
 - Chapter 5 supports active wetland restoration when the operation ceases as part of the reclamation.

5. The proposed use does meet the standards of the Zoning Ordinance for the following reason(s):
 - Mining is allowed in the agricultural district as an interim use; and
 - Mining is highly regulated, including reclamation of the site.

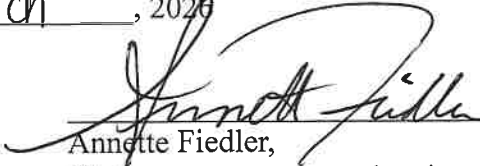

6. The proposed use will not have an adverse effect on the environment including impacts on groundwater, surface water, and air quality for the following reason(s):
 - Mining operations are highly regulated by the state and DNR;
 - Must have erosion control measures in place;
 - No well needs to be dug for material washing; and
 - A reclamation plan is stated and included.

7. The proposed use will not have an adverse effect on existing natural, historic, or scenic views of features in the surrounding neighborhood for the following reason(s):
 - An adjacent gravel pit already exists.

Based on the above findings, the Murray County Planning Commission hereby recommends to the Murray County Board of Commissioners that the R.A. Muecke Sand & Gravel Interim Use Permit #1434, to open and operate a gravel mining operation in the Agriculture District, in Part of NE1/4, Section 1, Belfast Township, Murray County, be granted for all the reasons set forth herein, and with the following eight (8) special conditions:

1. All other state, federal or local permits, as they apply to the project, must be obtained and a copy submitted to the Murray County Environmental Services Office before the operation can begin.
2. Slope the banks and otherwise properly guard and keep any pit or excavation in such condition as not be dangerous from caving or sliding banks.
3. Properly draining, fill or level any pit or excavation, after created, so as to make the same safe and healthful as the County shall determine.
4. Keep any pit, excavation or impounded waters within the limits for which the particular permit is granted.
5. Remove excavated material from any pit or excavation, away from the premises, upon and along such highways, streets or other public ways that were designated as the haul roads.
6. The permit holder must obtain a written, signed agreement with the Township and/or County on maintenance of the roads and submit a copy of that agreement to the Murray County Environmental Services Office before the operation can begin.
7. The permit holder must follow the submitted reclamation plan and complete the reclamation of the site within one (1) year from excavation completion.
8. Pile over burden on strippings in such a manner that it will allow mowing and/or spraying equipment to control noxious weeds.

Murray County Interim Use Permit Application Addendum

Exploration and Excavation of Mineral Material

The Interim Use Permit issued by Murray County shall be valid for a maximum of five years. If the operator seeks to continue beyond expiration, an application for an extension of the permit must be applied for at least 30 calendar days prior to the expiration of the current permit. The zoning administrator shall provide notice of expiration at least 120 calendar days prior to the expiration date of the Interim Use Permit. A report must be submitted to the Murray County Zoning Administrator at the time of the extension request specifying that they will be operating under the existing Interim Use Permit and will not be enlarging or expanding the operation.

Subdivision 4 Application

1. The application for a Interim Use Permit for a mining operation must be filed with the Murray County Zoning Administrator. Application for extension of a permit must be made 30 calendar days prior to the termination of the previous permit. The application must be made in the name(s) of the operator of the mine and owner of the land to be mined. The application shall contain the following:
 - A. The name and address of the operator and owner of the land.
 - B. An accurate legal description of the property where the mining shall occur.
 - C. A map of the property where the mining is to occur that clearly indicates the property lines and the limits of the proposed excavation. Topographic data, including contours at 10-foot vertical intervals. Watercourses, marshes, wooded areas, rock outcrops, power transmission poles and lines, and other significant features shall also be shown.
 - D. A narrative outlining the type of material to be excavated, mode of operation, estimate of amount of material to be removed, plans for blasting, and other pertinent information to explain the request in detail.
 - E. A fee as established by resolution of the County Board.
 - F. A general location map showing the proposed mining site in relation to any city within two miles.
 - G. A map showing access routes between the property and the nearest arterial road.
 - H. Location of roads or streets, show name, right-of-way width and traveled portion width, railroads, and trails.
 - I. Easements: show widths and identify utility or other purposes.
 - J. Natural land features: show locations of watercourses and drainage ways, flood of record, wetlands, sinks, basins, and wooded areas.
 - K. Man-made features: show buildings and other structures, dams, dikes, and impoundments of water.
 - L. Processing areas shall be identified and boundaries shown.
 - M. Access road to processing and mining areas shown.
 - N. Proposed location of principal service or processing buildings or enclosures shall be shown, as well as location of settling basins and process water ponds.
 - O. Reclamation plan in conformance with Subdivision 6 of this Section.
 - P. The operator must indicate if blasting is proposed as part of the mining operation and frequency of blasting.
 - Q. Any other information or reports the Zoning Administrator or Planning Commission deems necessary for purposes of evaluating environmental or aesthetic impacts.
2. Environmental Assessment Worksheets, Environmental Impact Statements, and Other Permits.
 - A. The County will require a copy of all other State or Federal Permits as they apply to the project.
 - B. Abandoned wells must be sealed in accordance with State and County requirements.

FINDINGS OF FACT
R.A. MUECKE SAND & GRAVEL – DARRIN KRUSE
INTERIM USE PERMIT

1. Brett Muecke, owner of R.A. Muecke Sand & Gravel, Inc. applied for an Interim Use Permit to open and operate a gravel mining operation. The plans include the following equipment to be on site: crushing/washing plant, screening equipment, temporary asphalt and concrete plants with feed hopper, silo, drying/mixing drum, wheel loader and genset. No blasting will occur on the site. Diesel fuel will be on site, with preventative measures taken by installing clay berms or using dual walled tanks.
2. The Applicant is R.A. Muecke Sand & Gravel, Inc., 849 Highway 59, Slayton, MN 56172.
3. The property that is the subject of the application is owned by Darrin Kruse, PO Box 497, Milford, IA 51351.
4. The subject parcel is legally described as Part of the NW1/4, Section 1, Township 105N, Range 39W (Belfast Township), Murray County (Murray County Assessor's Parcel #01-001-0021).
5. The zoning district for the property is the Agriculture, Shoreland Overlay, and Floodplain Overlay Districts.
6. Excavation of approximately 320,000 cubic yards of sand and gravel will occur approximately 300 feet from the Des Moines River. And will be west, north, and east of existing wetlands. The Applicant will need to consult the Murray Soil and Water Conservation District (SWCD) if any wetlands could be impacted.
7. The estimated depth of the materials to be mined is 11 feet. The estimated total acres to be mined is 19, with 1-3 acres to be mined at one time over the next twenty years.
8. The proposed haul road for the gravel operation will be 290th Avenue (County Road 44); a road agreement with Murray County has already been submitted for the haul road.
9. Existing land uses in the area are as follows: East and South – active and inactive gravel pits; North – building site and wetlands; and West – agriculture. The Murray-Cottonwood County line is just under one (1) mile east of the subject property. The nearest home is located under ¼ mile to the north of the excavation site.

10. The provisions of the Murray County Comprehensive Land Use Plan that are pertinent to the application include:
 - a. Chapter 5 – Conservation, Parks, and Open Space, page 99: Wetlands not only serve as water transport systems, they also provide immediate benefits to ecosystems that surround them. Wetlands are some of the most productive ecosystems. Murray County supports active wetland restoration.
 - b. Chapter 7 – Land Use, starting on page 155, The County should concern itself with the protection and conservation of the soil, water, air, and ecosystems within the County. These natural resources need to be maintained in a sustainable manner.

11. Provisions of the Murray County Zoning Ordinance that are pertinent to the application include:
 - a. Article 7 “A” Agricultural District, Section 701 Purpose, page 47, goals:
 - i. Natural Resource Base and Environmentally Sensitive Lands Are Protected; and
 - ii. Ground and Surface Water is Protected and Preserved.
 - b. Article 7 “A” Agricultural District; Section 704.3 Mineral excavation is allowed as an Interim Use Permit.
 - c. Article 12 “S” Shoreland Overlay District, Section 1206.3 Extractive Use Standards, page 92, are applicable to this permit request.
 - d. Article 17 General Regulations, Section 1702 Parking and Loading, page 124
 - i. Off-street parking areas in any district shall not be utilized for open storage of goods.
 - e. Article 17 General Regulations, Section 1703 Performance Standards, page 125-127.
 - f. Article 21 Exploration and Excavation of Mineral Material, Section 2101 Purpose, page 145.
 - g. Article 21 Exploration and Excavation of Mineral Material, Section 2103 General Provisions, page 145-146.
 - h. Article 21 Exploration and Excavation of Mineral Material, Section 2105 Operating Conditions, page 147-149
 - i. Article 21 Exploration and Excavation of Mineral Material, Section 2106 Reclamation, page 149

12. A public hearing for the interim use permit application was held on March 19, 2026

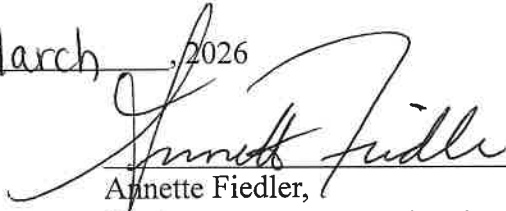

Based on the application, the public hearing, and all facts presented to the County as part of the process, including the above facts, the County concludes as follows:

1. The proposed use will not have an adverse impact on the health, safety, and general welfare of the occupants in the surrounding neighborhood for the following reason(s):
 - Mining activities already exists in the area; and
 - Mining is heavily regulated by the State and the DNR.
2. The proposed use will not have an adverse impact on traffic conditions for the following reason(s):
 - There are currently two other gravel pits in the area moving materials in and out; and
 - Road agreements with the County and the Township have already been submitted.
3. The proposed use will not have an adverse effect on property values and future development of land in the surrounding neighborhood for the following reason(s):
 - There are existing gravel pits and mining operations in the area;
 - The property owner requested to have his property mined; and
 - The property owner has plans for the property once the aggregated is removed.
4. The proposed use of the property is consistent with the goals and policies set forth in the Comprehensive Plan for the following reason(s):
 - Materials being mined are a valuable resource for the community; and
 - The operation will be harvesting these materials.
5. The proposed use does meet the standards of the Zoning Ordinance for the following reason(s):
 - A gravel mining operation is allowed on this property as an interim use permit.
6. The proposed use will not have an adverse effect on the environment including impacts on groundwater, surface water, and air quality for the following reason(s):
 - There are existing gravel pits in the area;
 - There are many safeguards and regulations in place;
 - There was not sufficient evidence from the SWCD to the contrary;
 - Mining operations are heavily regulated; and
 - There has been a reclamation plan submitted.
7. The proposed use will not have an adverse effect on existing natural, historic, or scenic views of features in the surrounding neighborhood for the following reason(s):
 - There are several existing mining operations in the area.

Based on the above findings, the Murray County Planning Commission hereby recommends to the Murray County Board of Commissioners that the R.A. Muecke Sand & Gravel Interim Use Permit #1436, to open and operate a gravel mining operation in the Agriculture, Shoreland Overlay, and Floodplain Overlay Districts, in Part of NW1/4, Section 1, Belfast Township, Murray County, be granted for all the reasons set forth herein, and with the following nine (9) special conditions:

1. All other state, federal or local permits, as they apply to the project, must be obtained and a copy submitted to the Murray County Environmental Services Office before the operation can begin.
2. Slope the banks and otherwise properly guard and keep any pit or excavation in such condition as not be dangerous from caving or sliding banks.
3. Properly draining, fill or level any pit or excavation, after created, so as to make the same safe and healthful as the County shall determine.
4. Keep any pit, excavation or impounded waters within the limits for which the particular permit is granted.
5. Remove excavated material from any pit or excavation, away from the premises, upon and along such highways, streets or other public ways that were designated as the haul roads.
6. The permit holder must obtain a written, signed agreement with the Township and/or County on maintenance of the roads and submit a copy of that agreement to the Murray County Environmental Services Office before the operation can begin.
7. The permit holder must follow the submitted reclamation plan and complete the reclamation of the site within one (1) year from excavation completion.
8. Pile over burden on strippings in such a manner that it will allow mowing and/or spraying equipment to control noxious weeds.
9. The applicant must work in cooperation with the Murray Soil & Water Conservation District (SWCD) to ensure compliance with the Wetland Conservation Act (WCA) and provide documentation to the Environmental Services Office from the SWCD of adherence to all WCA rules prior to commencing any excavation on the parcel.

SPECIAL CONDITIONS

- 1 The permit holder shall comply with all governmental laws, rules, and regulations as they apply to the project. If any state permits are required, a copy of those permits must be submitted to the Murray County Environmental Services Office before operation can commence.

- 2 The conditional use permit may be reviewed annually to ensure the conditions are being met.

- 3 The Applicant must supply the Environmental Services Office with the minutes from the February 26, 2026, pre-construction meeting and the County will provide a copy of those minutes to the following individuals with directions for their comments or concerns to be submitted within one week of receipt of the minutes
 - A Township Chair
 - B, Murray County Highway Engineer and Ditch Inspector
 - C Murray County Sheriff
 - D Murray County Zoning/Environmental Administrator
 - E Area Hydrologist, Minnesota Department of Natural Resources
 - F Minnesota Pollution Control Agency
 - G United States Farm Service Agency
 - H Murray Soil & Water Conservation District
 - I United States Fish & Wildlife Service
 - J Minnesota State Historical Society
 - K Two Planning Commission Members: Chair and County Board Representative
 - L MNDOT

If those notified have any concerns with the project, then a second pre-construction meeting would be required before construction could commence.

- 4 The Applicant must obtain a signed written agreement with the County for the maintenance of roads and a copy of said agreement submitted to the Murray County Environmental Services Office before operations can commence.

FINDINGS OF FACT
RED ROCK RURAL WATER CONDITIONAL USE PERMIT

1. Dominic Jones, Red Rock Rural Water Manager, applied for a Conditional Use Permit to erect and operate Ground Storage Reservoir Facilities in the Agriculture District.
2. The Applicant and Owner of the property is Red Rock Rural Water Systems, PO Box 160, Jeffers, MN 56145.
3. The subject parcel is legally described as Part of SE1/4 SE1/4, Section 5, Township 107N, Range 41W (Mason Township), Murray County (Murray County Assessor's Parcel #15.005.003.1).
4. Red Rock Rural Water Systems purchased the one (1) acre parcel from Jerry and Irene Moline.
5. The zoning district for the subject property and properties surrounding the subject property is the Agricultural District.
6. The subject property has an egress/ingress easement through the adjacent Moline property from a minimum maintenance, graveled Mason Township Road – 140th Avenue.
7. The overall height of the reservoir will be 42 feet and according to the Murray County's Zoning Ordinance, lighting is only required if the structure exceeds 100 feet in height. There is a telecommunications tower about 500 feet northeast of the proposed reservoir which has a light.
8. Provisions of the Murray County Comprehensive Land Use Plan that are pertinent to the application include:
 - a. Chapter 3 – Economic Development, page 38; provides information about the importance of having water quality and quantity in Murray County.
 - b. Chapter 5 – Conservation, Parks, and Open Space, starting on page 101, mentions that the County support and cooperation is critical for success of safeguarding public water supply wells in the county.
 - c. Chapter 6 – Infrastructure and Public Facilities, pages 118-119; identifies different aspects of rural water in all areas of the SWOT Analysis with more information about Water Supply and Management under Infrastructure on page 121.
 - d. Chapter 7 – Land Use, starting on page 137, provides information on issues concerning land uses within the county and how to balance the uses within the different zoning districts and how the uses influence water quality.

- e. Chapter 8 – Implementation, page 164, Goal – E3, Objectives – Comply with State and Federal rules and regulations, and Policies E3a, E3b, and E3g.
9. Provisions of the Murray County Zoning Ordinance that are pertinent to the application include:
- a. Article 7 “A” Agricultural District, Section 708, allows for Essential Service facilities in this zoning district following the procedures set forth in Article 18.
 - b. Article 18 Essential Services, Section 1804, allows for essential services via the conditional use permitting process.
 - c. Article 18 Essential Services, Section 1805.2B, notes that all essential service structures/facilities must meet the setbacks of the Zoning District in which it is located.
10. A public hearing for the conditional use permit application was held on March 19, 2026.

Based on the application, the public hearing, and all facts presented to the County as part of the process, including the above facts, the County concludes as follows:

1. The proposed use will not have an adverse impact on the health, safety, and general welfare of the occupants in the surrounding neighborhood for the following reason(s):
 - This is a water storage reservoir to provide necessary rural water to Murray County residents.
2. The proposed use will not have an adverse impact on traffic conditions for the following reason(s):
 - There will be an increase of traffic during construction of the storage tank; and
 - Traffic frequency will be dependent on maintenance of the facilities.
3. The proposed use will not have an adverse effect on property values and future development of land in the surrounding neighborhood for the following reason(s):
 - The reservoir is located well off the road;
 - Red Rock will be utilizing existing driveways for access;
 - There are existing structures nearby that are taller than this ground storage reservoir; and
 - Property values should increase with the availability of this rural water expansion.
4. The proposed use of the property is consistent with the goals and policies set forth in the Comprehensive Plan for the following reason(s):
 - The Plan encourages rural water expansion to serve the residents of the County;
 - This will be an efficient setup on an existing building site; and
 - It will enhance the public water supply which is a critical need for success in the County.
5. The proposed use does meet the standards of the Zoning Ordinance for the following reason(s):
 - The projects has been engineered and designed;
 - All structures and facilities will be constructed to plan specifications;
 - All structures and facilities will meet the required setbacks; and
 - The use is allowed by a conditional use permit in the Agriculture District.
6. The proposed use will not have an adverse effect on the environment including impacts on groundwater, surface water, and air quality for the following reason(s):
 - The regulating agencies verified that the water source would meet all regulatory requirements;
 - Working with Lincoln Pipestone Rural Water to secure redundancy for supplying water; and
 - A more secure water source.
7. The proposed use will not have an adverse effect on existing natural, historic, or scenic views of features in the surrounding neighborhood for the following reason(s):
 - The ground storage facilities will fit in with other existing agricultural structures in the area; and
 - The State Historic Preservation Office cleared this site for construction with no concerns.

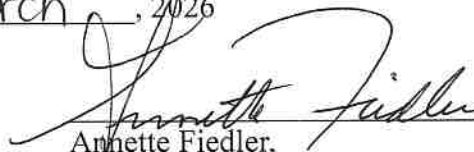

Based on the above findings, the Murray County Planning Commission hereby recommends to the Murray County Board of Commissioners that the Red Rock Rural Water conditional use permit #1437, to erect and operate Ground Storage Reservoir Facilities in the Agriculture District, in Part of SE1/4 SE1/4, Section 5, Mason Township, Murray County, be granted for all the reasons set forth herein, and with the following four (4) special conditions:

1. The permit holder shall comply with all governmental laws, rules, and regulations as they apply to the project. If any state permits are required, a copy of those permits must be submitted to the Murray County Environmental Services Office before operation can commence.
2. The conditional use permit may be reviewed annually to ensure the conditions are being met.
3. The Applicant must supply the Environmental Services Office with the minutes from the February 26, 2026, pre-construction meeting and the County will provide a copy of those minutes to the following individuals with directions for their comments or concerns to be submitted within one week of receipt of the minutes:
 - A. Township Chair
 - B. Murray County Highway Engineer and Ditch Inspector
 - C. Murray County Sheriff
 - D. Murray County Zoning/Environmental Administrator
 - E. Area Hydrologist, Minnesota Department of Natural Resources
 - F. Minnesota Pollution Control Agency
 - G. United States Farm Service Agency
 - H. Murray Soil & Water Conservation District
 - I. United States Fish & Wildlife Service
 - J. Minnesota State Historical Society
 - K. Two Planning Commission Members: Chair and County Board Representative
 - L. MNDOT

If those notified have any concerns with the project, then a second pre-construction meeting would be required before construction could commence.

4. The Applicant must obtain a signed written agreement with the County for the maintenance of roads and a copy of said agreement submitted to the Murray County Environmental Services Office before operations can commence.

MURRAY COUNTY

REQUEST TO BE ON THE BOARD AGENDA (RBA)

Requested Board Date: 4/7/2026	Item: PUC Letter - Lake Wilson Solar Energy LLC
Originating Department: Environmental Services	Presenter: Jean Christoffels
Requested Agenda Placement: Regular Agenda	Amount of Time Needed: 5 min
If requesting to expend funds, is the expenditure budgeted?	Attending Meeting: In Person

Lake Wilson Solar Energy LLC is looking to apply to the Minnesota Public Utilities Commission (PUC) for an amendment to their solar and battery energy storage system (BESS) project in Leeds Township. The proposed changes would include an increase in the nameplate capacity of the BESS, which has the potential to support reliability in the area, alleviate some congestion, and possibly reduce the amount of curtailment currently experienced with wind generation in the County. The letter would notify the PUC that Murray County is aware of the project amendments and is in support of the proposed changes.

Board Action Requested

It is moved by _____, seconded by _____ and passed to have County Board Chair Mark Carlson sign and submit a letter, on behalf of Murray County, to the Minnesota Public Utilities Commission regarding the proposed amendments to the Lake Wilson Solar Energy, LLC solar and battery energy storage system (BESS) in Leeds Township, Murray County.

Supporting Documents

1. 04-07-2026 County Board Letter to PUC for Lake Wilson Solar permit amendment

Murray County Board of Commissioners
2848 Broadway Ave. PO Box 57
Slayton, MN 56172

April 7, 2026

Commissioner Katie Sieben
Minnesota Public Utilities Commission
121 7th Place E, Suite 350
St. Paul, MN 55101-2147

RE: Lake Wilson Solar Energy LLC
Docket #IP7070/GS-21-792

Dear Commissioner Sieben:

The purpose of this letter is to provide comments regarding the recently submitted Lake Wilson Solar Energy LLC amendment request regarding the Lake Wilson Solar Energy Center (the Project), located wholly within Murray County's jurisdiction.

Murray County worked in cooperation with the Project's Developer, Invenergy (Developer), in the fall of 2025 to adopt a road use agreement (Agreement) for the entire Project, consisting of the 150-megawatt (MW) solar energy generating system (Solar Facility) and the up to 95 MW alternating current (MWac)/380 MW hours (MWh) alternating current (AC) battery energy storage system (BESS).

According to the recent amendment request to add more battery energy storage to the Project, Murray County understands this increase will support reliability in the area, alleviate some congestion, and have the potential to reduce some of the curtailments of local wind generations. This curtailment issue has been a major concern for Murray County, including the reduced renewable energy production tax.

Commissioner Katie Sieben
Minnesota Public Utilities Commission
April 7, 2026
Page 2

Murray County supports the proposed amendments to the Project, whereas the Site Permit would be 1) amended to increase the nameplate capacity of the BESS to up to 170 MWac (680MWh); and 2) bifurcated to provide one site permit for the Solar Facility, with Lake Wilson Solar as permittee, and one site permit for the BESS with a Lake Wilson Solar affiliate, Lake Wilson Energy Storage LLC (Lake Wilson Storage) as the permittee.

If the proposed amendments are approved, the County will work with the Developer to review the Agreement to determine if any changes or amendments are warranted based on the changes to the Project.

Thank you for allowing Murray County the opportunity to comment on the proposed amendments to the Project, and please feel free to contact us should you have any questions or need any additional information.

Sincerely,

Mark Carlson
Chair Murray County Board of Commissioners

I am planning to keep back one of the old squad cars and remove the striping. The unstriped vehicle will be used by deputies to attend trainings, but keeping the vehicle around puts us 1 mobile radio short. The vehicle could also be used for mental health transports requiring an unmarked vehicle, but we would have to purchase an additional mobile video camera.

Taxes, shipping, handling and other fees may apply. 3% Processing Fee will be accessed on all credit card transactions. Any price quoted for a product is subject to market change, supply disruption, adjustments to foreign exchange rates, and tax reforms, among other causes. We reserve the right to cancel orders arising from pricing or other errors.

RETURN POLICY. Any Motorola Sale Equipment returned is subject to a 20% restocking fee. Return requests for Motorola Sale Equipment must be made within 30 days of invoice date for radio equipment, parts and accessories. Non-Motorola Sale Equipment may be subject to a 20% restocking fee or may not be returnable. If any Equipment is inoperable upon delivery, Customer must notify DSC Communications within 14 days of delivery to be eligible for credit or exchange; inoperable Equipment returned after 14 days will be processed as warranty repairs. Only equipment purchased from DSC Communications is accepted for return and must be in new condition. Customized or custom-made equipment, including by way of illustration, custom cabinets, tuned duplexers, computer equipment, software, BDAs and built-to-order repeaters, are not eligible for return. Materials that have been determined to be outside the return policy requirements will be returned to the Customer or disposed of at Customer's expense. Cellular products, including boosters and cellular accessories are subject to the manufacturer's terms.

Clarifications & Exclusions - Quotes

General Work Terms:

1. All work will be performed during normal business hours - *Monday through Friday, 8:00am to 5:00pm* - unless otherwise agreed upon by both parties.
2. Customer will maintain a clean, safe, and efficient work environment.
3. Permits and associated fees are not included in DSC Communications' proposal pricing. (if applicable)
4. Customer will provide a secured area to store/stage project-related materials.
5. Customer acknowledges that supply-chain and shipping difficulties may result in unavoidable delays/cost increases. Customer agrees to provide DSC with reasonable extensions of time and DSC agrees to make efforts to avoid or minimize delays.
6. Changes to scope of work, or departures from initial planning that arise during or after deployment, will be discussed with customer as a change-order and invoiced appropriately.
7. Returns may be subject to a restocking fee.

Customer Responsibilities: (If applicable)

1. Customer will provide current blueprints/floor plans for identification of cabling routes.
2. Where installations use customer-premise wiring or the wiring/cabling is installed by others, all wiring shall be properly installed, free from defects, and capable of supporting the new equipment. Time and materials used to troubleshoot and repair wiring issues may be considered beyond scope and subject to invoicing.
3. Project Manager(s): Customer shall assign project manager(s) to make decisions for equipment installation and placement.
4. Network/Technology Manager: Due to the complexity of network integration practices and security policies, someone empowered to make customer-premise network decisions and verifications must be assigned, and available to the technicians on-site.

Exclusions (unless otherwise specifically stated in proposal):

- Electrical work to panels, breakers, or electrical outlets.
- Installation conduit or cable raceway.
- Rental/provision of aerial lifts or scaffolding.
- Interconnections to other devices (such as burglar alarm or fire annunciator panels).
- Vertical or horizontal core drilling holes exceeding 3/4" in diameter or 12" in depth.
- Removal of old wiring or devices.
- Application Programming Interface (API) integration to other network devices.
- Customer-premise network reconfigurations to routers, switches, firewalls, etc.
- Replacement of ceiling tiles, millwork, paint, or other finishing/fine detail that may be disturbed during the normal course of work.

Re: Purchase of Motorola radio communications equipment

Murray County Sheriff does not have a formal purchase order system. This letter serves as authorization for Motorola Solutions to place an order for the communications equipment on the attached sheet for a purchase price of \$5,533.80. Murray County Sheriff agrees to pay Motorola Solutions for the equipment "Net 30 days upon shipment" to:

DSC Communications
612 Industrial DR SW
Willmar, MN 56201

When Motorola Solutions invoices Murray County Sheriff, the invoice should reference 3560666MCS and be sent to Heath Landsman at the following address:

Murray County Sheriff
2558 29th St
Slayton, MN 56172 507-836-6168

For taxation purposes, **MN Contract 40071** is being used to make the order tax exempt; the equipment sold to Murray County Sheriff will ultimately reside at the following address:

Murray County Sheriff
2558 29th St
Slayton, MN 56172

Payments can be authorized solely on this document. I submit that I am a duly authorized official of our entity and that my signature makes this a legal and binding document and that funding has been encumbered for this order.

If you have any questions regarding this order, please feel free to contact Heath Landsman at 507-836-6168.

Sincerely yours,

By: _____

April 7, 2026**

Commissioner _____ presented the following resolution and moved for its adoption.

**RESOLUTION 2026-04-07-01
RESOLUTION DESIGNATING MURRAY COUNTY EDA AS A
LOCAL DEVELOPMENT ORGANIZATION**

WHEREAS, Murray County, (herein, “the County”) would like to better utilize the Community Development Block Grant Economic Development (CDBG-ED) Set-Aside federal funds; and,

WHEREAS, if the County retains these funds and their repayment, the funds retain the federal designation and guidelines forever; and,

WHEREAS, the County by resolution, can request from the Minnesota Department of Employment and Economic Development (DEED), authorization to transfer CDBG-ED Set-Aside funds to a Local Development Organization, herein, (LDO); and

WHEREAS, the Murray County Economic Development Authority (“Murray County EDA”) is interested in being designated as an LDO and is a non-profit organization, as defined in Internal Revenue Service regulations, serving the community and economic development needs of a non-entitlement area; and

WHEREAS, the Murray County EDA has adopted procedures and guidelines for the use of the federal funds, the repayment of the federal funds plus any interest accrued, earned or paid thereon.

NOW, THEREFORE BE IT RESOLVED by the Murray County Board of Commissioners that the Murray County Board of Commissioners hereby requests approval from the DEED to designate the Murray County EDA as a Local Development Organization (LDO), serving the community and economic development needs of Murray County and, therefore, authorize them to receive the repayments from the CDBG-ED Set-Aside loan.

The foregoing resolution was duly seconded by Commissioner _____ and thereupon being put to a vote all members voted for its adoption.

I CERTIFY THAT the above Resolution was adopted by the Board of Commissioners of the Murray County on the 7th day of April, 2026.

**RESOLUTION RECOMMENDING THE APPOINTMENT OF
ANDY GEIGER
TO THE
RED ROCK RURAL WATER SYSTEM
BOARD OF COMMISSIONERS**

BACKGROUND INFORMATION

WHEREAS, Leslie Anderson's 4-year term as a Commissioner on the Red Rock Rural Water System ("RRRWS") Board of Commissioners is scheduled to expire at midnight on December 31, 2028; and

WHEREAS, Leslie Anderson resigned as a Commissioner on March 31, 2025; and

WHEREAS, the RRRWS Board of Commissioners conducted a search to replace Leslie Anderson; and

WHEREAS, on February 12, 2026 the RRRWS Board of Commissioner unanimously passed a Motion which recommends that Andy Geiger replace Leslie Anderson on the RRRWS Board of Commissioners; and

WHEREAS, the undersigned County Board of Commissioners believe that Andy Geiger is qualified to act as a Commissioner on the RRRWS Board of Commissioners and is worthy of appointment.

RESOLUTION

NOW BE IT NOW RESOLVED, that the Brown County Board of Commissioners hereby recommends that Andy Geiger be appointed to the Red Rock Rural Water System Board of Commissioners pursuant to and provided for by Minnesota Statutes §116A et seq. to complete Leslie Anderson's term which is scheduled to expire at midnight on December 31, 2028.

Hello, my name is Andy Geiger, I am currently the Director of Prairieland Solid Waste Management. We are a solid waste management entity that is owned by Martin and Faribault Counties and is operated under a Joint Powers Agreement.

I, and my family of four, live in rural Martin County. We hooked up to Red Rock Rural Water System in 2016 because of the poor water quality, quantity, and maintenance issues of our existing well.

Prior to Prairieland I was the Director of the Jackson County Land Management Office for eleven years. The Office consisted of the Environmental Services Division and The Soil and Water Conservation District. Each was responsible for a multitude of different land use, soil and water conservation, and solid waste management programs.

I look forward to this opportunity to serve on the Red Rock Rural Water Board of Commissioners. Since my first job out of college, as a Water/Wastewater Operator for the City of St. James and throughout my career I have always worked in a field that's purpose was to protect and improve our water quality and our natural resources.
